Ancient Egypt offers a rich foundation from which to reconstruct life in the past, with its remarkable range of written, visual and material sources and its international connections. Yet the study of...

"Abba jaan" remark triggers political war ahead of UP polls

Those who said "abba jaan" used to get all the rations, said Yogi while claiming that most of the people were not getting their rations before 2017...

City Commits to Equity and Inclusion

In the context of America in 2021, the numbers were not surprising; however, to the city council and city officials, they were unacceptable. "It's hard to hear but deeply important and a good...

Tech companies need to take responsibility for the spread of violent extremist content and the rising rates of online radicalization.

All of this has happened in a context where our legal rights to freedom... Certainly, it has been the mantra of secular humanism that religious language and speech has no place in public discourse...

The Clinton-Lewinsky scandal was embarrassing to talk about — but changed how we discuss sex

Wall Street Journal Cites Constella's Independent Report on Online Polarization and Digital Risk

Constella's new report zeros in on Spain to analyze how insults and threats contribute to polarization and digital risk online

"For God So Loved the World, That He Played"

She fervently believed that God had a plan for her life. And she assumed she would have positive outcomes, in the form of winning streaks or scholarship money. But she never fully integrated her faith...

The dangers of AI are more subtle than armed robots, experts point out

In the last five years, AI has gone from something that happens mainly in research laboratories to something that is in society, affecting people's lives. We are facing the social impact of this...

"Say What? Climate Language Confuses the Public, Study Shows"

Terms like "mitigation" and "tipping point" make it difficult for lay people to understand climate change problems and solutions, researchers say.

"The Limits of "Lived Experience"

More and more, analyses that are dependent upon identity and "lived experience" are propped up, ultimately resulting in ad hominems, mud-slinging, intellectual dishonesty, and the inevitable tried-and...

"The Limits of "Lived Experience""

More and more, analyses that are dependent upon identity and "lived experience" are propped up, ultimately resulting in ad hominems, mud-slinging, intellectual dishonesty, and the inevitable tried-and...

"STEM isn’t everything"

We shouldn’t only learn declarative knowledge and how to think about concepts, but also how to think for ourselves—something that, paradoxically, must be learned but cannot be taught.

"A Matter of Memory: Shigeko Kubota’s Video Sculptures"

Read an excerpt from the exhibition catalogue about how the artist transgressed boundaries to create something entirely new.

What kinds of misunderstandings emerge in the context of criminal trials dealing with war...

New Frontiers in Forensic Linguistics: Themes and Perspectives in Language and Law in Africa and beyond

The field of forensic linguistics is a niche area that has not enjoyed much participation from the African continent. The theme of language and the law in this...

"Conrad's Fiction as Critical Discourse"

Joseph Conrad's comments about his works have commonly been dismissed as theoretically unsophisticated, while the critical notions of James, Woolf and Joyce have come to shape our understanding of the...
